## Education:

Rochester Institute of Technology, Rochester, NY

- Bachelor of Science, Biomedical Photographic Communications May 2011 with High Honors
- Bachelor of Science, Environmental Science May 2011 with Honors
- Masters in Environmental Science November 2012

## Skills:

- **Photography:** Surgical, Macro, Photomicrography (Brightfield, Darkfield, Polarization), Forensic, Portrait, Event, and Night Photography
- **Photography Equipment:** external flash units, on location lighting, digital and film cameras of various brands and formats (large, medium, 35mm), macro, telephoto and fixed lens
- **Software:** Microsoft Office; Adobe Flash, Photoshop, Bridge, InDesign, Dreamweaver, Final Cut Pro, Helicon Focus, Zerene Stacker, Mac and PC proficient.

## Projects:

- Photographed, edited, organized, and composed medical photographs for the publication of a Forensic Atlas.
- Developed a comprehensive online field guide of benthic macroinvertebrates using my own photographs ([www.evertebrate.com](http://www.evertebrate.com)).
- Photographed environmental events and courses for public relations.

## Experience:

**Library Clerk**, Port Jervis Free Library, 138 Pike Street Port Jervis, NY 12771

September 2015-Present

- Assist patrons, check materials in and out, answer phones, registrar patrons, collect fines, shelve books, and cash out drawer at end of day.
- Design flyers.
- Plan and implement programming, including an online book discussion (the first of its kind within a 47 member library system).

### **Autopsy Assistant (Freelance),**

Ulster County Department of Health and Mental Health, Kingston NY

October 2016-Present

Orange County Medical Examiner Office, Goshen NY

July 2013-August 2016

- Act as lead for all photography needs of the department.
- Assist forensic pathologist during autopsy procedures.
  - Photographically document the remains as received and all aspects of the autopsy following current forensic standards.
  - Eviscerate, examine and weigh organs; collect samples for toxicology; and close the body at the completion of the autopsy.
- Taught medical and legal professionals best photographic practices for rape and sexual assault.

**Photographer**, Lifetouch National School Studios, 11 Jericho Rd, Glenmont NY

August 2015-November 2015

- Captured high quality portraits of students and staff in a fast paced environment.

**Student Worker, Photographic Equipment Cage**, Rochester Institute of Technology, Rochester, NY

August 2010-May 2012

- Taught students how to use various photographic equipment.
- Ensured photographic equipment was in working order.
- Checked various photographic equipment in and out to students.
- Inventoried all photographic equipment.

**Student Liaison, Great Lakes Innovative Stewardship Through Education Networks**, NY

July 2011-August 2011

- Analyzed the water quality of three lakes using water and macroinvertebrate samples.
- Photographed sample sites to include in report.
- Led survey team to remote locations on various lakes to obtain water and biological samples.
- Created easy to follow photographic manuals for educational scientific experiments.
